

RAYANE TERKI

Full-Stack Engineer — Backend & AI

rayaneterki55@gmail.com +213 660 320 043 github.com/trrayane linkedin.com/in/rayane-terki-334b19378

ABOUT

Final-year Computer Science student at USTHB and full-stack engineer focused on backend systems, AI integration, and security. I build scalable, production-style apps end to end — APIs, databases, and infrastructure with Node.js, Python, and React/Next.js — and integrate LLM & ML features for smarter products. I also play CTFs in web, reverse engineering, crypto, and forensics.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, PHP, HTML, CSS, SQL, C, C++
Frontend	React, Next.js, React Native (Expo), Tailwind CSS, Vite
Backend	Node.js, Express, NestJS, FastAPI, Django
Databases	PostgreSQL, MongoDB, MySQL, Redis, Prisma
DevOps	Docker, Nginx, GitHub Actions, AWS, Vercel, Linux, Git
AI & Security	Gemini API, LangChain, OpenAI API, JWT, OAuth2, Burp Suite, Wireshark, Kali Linux

PROJECTS

Healy

Multi-role medical platform (patient, doctor, pharmacist, caregiver, admin) — AI-assisted symptom analysis, real-time messaging, appointment scheduling, PDF prescription generation, and encrypted patient records.

github.com/trrayane/Healy-Front

React 18 · Vite · Redux Toolkit · Tailwind CSS · Three.js

Healy Mobile

React Native / Expo companion app bringing the Healy patient-doctor workflow to mobile — booking, AI symptom checker, and prescriptions on the go.

github.com/trrayane/Healy-Mobile

React Native · Expo · Expo Router

JusticePath

AI-assisted legal-assistance platform for Algerian citizens — rich document editor for drafting legal text, an AI chat assistant for legal Q&A, built for a hackathon.

github.com/trrayane/JusticePath-front

React 19 · TypeScript · Vite · shadcn/ui · Framer Motion

SummarAI

Production-style summarization engine — turns PDFs, documents, and URLs into clean summaries streamed live via SSE, with multiple styles and an analytics dashboard.

github.com/trrayane/SummarAI

Python · FastAPI · LangChain · Gemini 2.5 Flash

AC Collection

Bilingual (EN/AR, RTL) e-commerce store for custom-printed clothing in Algeria — live design customization studio and Cash-on-Delivery checkout across all 58 wilayas.

github.com/trrayane/AC-COOLECTION · ac-collection.vercel.app

React · Vite · Node.js · Express · Sequelize · PostgreSQL

Jingle AI

AI pipeline that turns a short brand brief into a fully produced audio jingle — Gemini writes lyrics and performs vocals, MusicGen composes the instrumental, mixed automatically. Built at a hackathon.

github.com/trrayane/Hackiwaha3.0

FastAPI · React · Vite · PostgreSQL · Gemini TTS · MusicGen

Rayane Labs

Full-stack peripherals e-commerce for the Algerian market — advanced filtering, JWT/bcrypt auth, admin panel, and nationwide Cash-on-Delivery shipping.

github.com/trrayane/Rayane-ecomm

React · Vite · Express · Supabase · JWT · Docker

Task Manager

Real-time collaborative Kanban workspace with live task updates and role-based access.

Next.js · Socket.io · MongoDB

Assembly Calculator

Working arithmetic calculator written in x86 Assembly — registers, stack, syscalls.

x86 Assembly

2048 Game

2048 puzzle game built from scratch in C with SDL2 for graphics and input.

C · SDL2

Portfolio v1

Earlier personal portfolio with light/dark mode and a working contact form.

React · Vite · Tailwind CSS

CTF & HACKATHONS

Compete in CTFs across web, reverse engineering, crypto, and forensics — participant in MCTF, GHCTF, EXHA, and other Algerian and online CTFs and hackathons (including the project behind Jingle AI and JusticePath).

EDUCATION & LANGUAGES

Licence in Computer Science (L3, final year)	Languages
USTHB — Université des Sciences et de la Technologie Houari Boumediene, Algiers	Arabic (native), French (fluent), English (proficient)
